

## FEEDBACK

This section compiles, structures and summarises all the educational uses and AI tools mentioned in the contributions to the forum<sup>1</sup> of this MOOC.

The survey of educational uses presented covers more than 800 messages from teachers who shared their experiences with generative AI between November 2023 and October 2025.

This summary of the educational uses of AI allows you to:

- Quickly discover tips and best practices without reading the entire forum
- Access the tools directly via the links provided
- Identify uses that can be adapted to your context

After consulting this section, feel free to share your uses, thoughts or difficulties to collectively enrich [the MOOC forum on FUN](#).

---

1. [The forum of this MOOC](#) is accessible to anyone registered for the MOOC version available on the French online learning platform "France Université Numérique" (FUN). ↪

## AI TOOLS MENTIONED IN THE MOOC FORUM

Teaching level	AI tool used	Use in an educational context	Links
All	Firefly	Generate an artistic image	<a href="#">See</a>
All	Capcut	Create and edit videos	<a href="#">See</a>
All	Copilot	Generate content, assist in creating digital content on Microsoft software	<a href="#">See</a>
All	Dall-e	Generate an image from text	<a href="#">See</a>
All	ElevenLabs	Generate or transcribe a voice	<a href="#">See</a>
All	Heygen	Transform text into video	<a href="#">See</a>

Teaching level	AI tool used	Use in an educational context	Links
All	Kling	Generate professional-quality videos and images	<a href="#">See</a>
All	Krea	Create images, illustrations, and educational visuals	<a href="#">See</a>
All	Leonardo	Create artistic images and videos	<a href="#">See</a>
All	Luma Labs	Generate 3D videos and renders from photos and text	<a href="#">See</a>
All	Magic School	Create educational pathways and activities	<a href="#">See</a>
All	Neuroflash	Create and optimize text and image content	<a href="#">See</a>
All	Pika	Generate videos with animations from a prompt, image, or video	<a href="#">See</a>
All	Stable Diffusion	Generate detailed and artistic images from text	<a href="#">See</a>
All	Sydologie	Generate and enhance the creation of educational activities	<a href="#">See</a>
All	TTS Maker	Generate a voice from text	<a href="#">See</a>
All	Udio	Generate audio from text descriptions	<a href="#">See</a>
All	Vidnoz	Generate and enhance videos, voices, music, or images	<a href="#">See</a>
All	Wave	Create, edit, host, and share educational videos	<a href="#">See</a>

Teaching level	AI tool used	Use in an educational context	Links
All	Wooflash	Generate educational resources and track student progress	<a href="#">See</a>
Elementary school	Lalilo	Use AI for inclusive pedagogy	<a href="#">See</a>
Middle school	Cuentito	Generate an illustrated story for children	<a href="#">See</a>
High School / University	Briskteaching	Generate personalized educational materials with Google	<a href="#">See</a>
High School / University	Gamma	Create presentations and design a website	<a href="#">See</a>
High School / University	Miro	Organise, structure, and generate ideas on a virtual whiteboard	<a href="#">See</a>
High School / University	Mizou	Creation of a learning chatbot	<a href="#">See</a>
High School / University	Perplexity	Obtain information by synthesizing multiple sources	<a href="#">See</a>
High School / University	Poe	Chatting with different AI models	<a href="#">See</a>
High School / University	Sketchbook	Create sketches and digital art	<a href="#">See</a>
High School / University	Teachable machine	Train a computer to recognize your images, sounds, or poses	<a href="#">See</a>
University	ResearchRabbit	Explore, structure, and track academic literature	<a href="#">See</a>

## EDUCATIONAL APPLICATIONS

Teaching level	Educational function	Description	Links
All	Using an AI image generation tool	AI image creation tools mentioned in the AI4T forum	<a href="#">See</a>
All	Using an AI quiz generation tool	AI quiz creation tools mentioned in the AI4T forum	<a href="#">See</a>
All	Using an AI video creation tool	AI video creation tools mentioned in the AI4T forum	<a href="#">See</a>
All	Facilitating inclusive teaching with AI	AI methods and tools to support accessibility and differentiation in the classroom	<a href="#">See</a>
All	Learning and teaching AI as a teacher	Platforms for AI training aimed at educators	<a href="#">See</a>
All	Grading assignments with the help of AI	AI principles and tools to assist teachers with grading	<a href="#">See</a>
All	Enhancing generative AI responses with specialized data (RAG)	Method and tools to enhance AI responses with Retrieval-Augmented Generation	<a href="#">See</a>
All	Supporting students in their learning	Self-directed learning platforms with AI	<a href="#">See</a>
Middle school	Raising Awareness of Natural Disasters with AI	Educational activities to raise student awareness of natural disaster risks	<a href="#">See</a>
Middle school	Supporting mathematics learning	Digital tools for customising mathematics learning	<a href="#">See</a>
High school	Teaching AI through digital creation	Tools and teaching scenarios to introduce the	<a href="#">See</a>

Teaching level	Educational function	Description	Links	
		fundamental concepts of AI		
University	Analysing data in social sciences	Tools for analysing texts and qualitative data	<a href="#">See</a>	
University	Prompting Methodology	Methods for effective use of conversational AI	<a href="#">See</a>	
University	Searching and extracting DOIs with AI	Tools and tips to search, extract, or add DOIs	<a href="#">See</a>	
University	Writing articles with AI assistance	AI tools to assist with article writing	<a href="#">See</a>	
University	Targeting Scientific Monitoring	Alert services and structuring of scientific publications	<a href="#">See</a>
