CAPCUT

DESCRIPTION[1]

CapCut is a Singaporean web and mobile application that allows users to create, edit, and customise videos.

FEATURES[1]

- Video editing: Cut, adjust, and organise video clips.
- Text and animation: Add animated text to explain concepts or illustrate key points.
- Automatic subtitling: Generate subtitles automatically.
- Music and sound effects library: Access a selection of royalty-free music and sound effects to enhance videos.

EXAMPLE OF USE[2]

A literature teacher asks students to create an animated video presenting a book of their choice that they read during the holidays. Students use CapCut to edit video clips, add explanatory subtitles, and incorporate effects to make the summary more dynamic.
