## 3.3.1 STEP 3 - VIEWING AND SHARING YOUR TRAINING ON WEB PAGES

## UPDATE THE MULTILINGUAL NAVIGATION

The first set is to update the **mkdocs.yml file**.

1 - Create the new language for the navigation tab

Add the new language after the existing ones using the same script.

54	generator: false
55	alternate:
56	- name: English
57	link: ./
58	lang: en
59	- name: Français
60	link: ./fr/
61	lang: fr
62	– name: Italiano
63	link: ./it/
64	lang: it
65	- name: Deutsch
66	link: ./de/
67	lang: de
68	– name: Slovenščina
69	link: ./sl/
70	lang: sl

Script of languages setting in the .yml document.

- name : name of the language as it will appear in the navigation tab
- link : extension of all pages static web pages in the new language
- lang : ID used at the end of each markdown file for a single language

T For adding Spanish to the navigation tab

- name : Español
- link : . /es/
- lang : es
- 2 Translate titles and contents

Add new entries with the new language id: here **es** for **spanish**. **All existing navigation has to be provided in the new target language** 

## 🟗 Use es for spanish

425	"Mooc and on-line resources about AI and AI&Education": "Mooc in spletni viri o umetni inteligenci ter
426	"AI4T resources presentation": "Predstavitev virov AI4T"
427	"AI Tools for the LSEP": "Orodja UI za eksperimentiranje"
428	"Partners Resources": "Viri za partnerje"
429	es:
430	"Home": "Inicio"
431	"Explore and support the use of AI in education": "Explorar y apoyar el uso de la IA en la educación"
432	"Online Self Training": "Autoformación en línea"
433	"General Presentation": "Presentación general"
434	"0.1 What does this training offer us?": "0.1 ¿Qué nos ofrece esta formación?"
435	"0.2 Conditions of use": "0.2 Condiciones de uso"

Example of script adaptation to provide navigation in spanish.

## HOW TO GENERATE THE STATIC WEB PAGES

Using GitHub pages, it is possible to generate static web pages and consult all the resources of the Mooc using a web browser. On your GitHub project page, you can display the predefined address of the static web pages as[YOURNAME[.GitHub.io/ai4t/]

inrialearninglab / ai4t	Q   + - O II A						
<> Code 💿 Issues 👬 Pull requests 🕞 Actions 🗄 Projects 🖽 Wiki 🔅 Security	🗠 Insights 🔯 Settings						
ai4t Public     2	Fork 9 - 🗶 St 3 -						
\$° mooc-v3 -     Go to file     Add file -     <> Code -       \$' Branches S Tags     1	About © ∂ inrialearninglab.github.io/ai4t/						
This branch is 10 commits ahead, 4 commits behind main.	បি Readme গ্রুড View license -^- Activity						
<ul> <li>benedictecardon Update portal for dissemination + add subtit 4 days ago 3 882</li> <li>5 watching</li> </ul>							
tab.">							

Access to the predefined address of the static webpages and localisation of action tab.

Access the visualisation of the GitHub pages.

Action tab : place to go to generate the static web pages.

Setting tab : update to make before going to **Action**- the action tab.

段 General		GitHub Pages

How to generate a new workflow in the action tab.

In order to generate the workflow, select the 3 elements in the order shown above.

It take time (several minutes) for the task to be completed. Then there is a time lag with the generation of static web pages, so you have to wait a little before you can view them on **YOURNAME.GitHub.io/ai4t/**.

These instructions are a very simplified presentation of how to view Gitbub pages. For more details, consult the official git documentation: https://pages.GitHub.com/
